

NEW YEAR, KNOW YOUR STRUGGLES

A Campaign for Awareness, Strength & Real Change

Every year we make a number of resolutions that put pressure on us each and every day.

These pressures if we don't meet them lead us to feel a sense of failure, this feeling damages our mental health, it pushes our minds into a sense of panic that we are somehow not matching up to other people. It makes us look at ourselves in a negative way.

Lets make it new year, same you, more support for positive change whatever that may look like, positive actions each and every day.

This could be go for a walk, make more time for family, cut down the takeaways, what ever it is make it a positive change.

Stop comparing
Start living YOUR life.

NEW YEAR, SAME YOU, STRONGER SUPPORT.
